

Hitting the Road...

By Joe Wachs (Delta Kappa/Ball State '99), Director of Chapter Services

Introducing the Leadership and Education Consultants for 2003–2004

A usual Fraternity occurrence each Fall, this year's Leadership and Education Consultant staff left the International Headquarters in mid-August to begin their year of travel and service to Theta Chi Fraternity. In a change of pace from previous years' staff of six LECs, five men have gassed up their cars and hit the road for us this year. While the four main travel regions have remained the same (West, Northeast, Midwest, Southeast), the workload during the upcoming academic year will be shared by all five Consultants. Each will have the opportunity to work with both active chapters and our expansion groups.

Traveling as a consultant is one of the most rewarding challenges an individual can have in Theta Chi Fraternity. LECs give of their time and talent in order to help each of our chapters grow. It is the sincere love for Theta Chi, and the desire to see it succeed, that drive each of these brothers. It is a privilege working closely with these five outstanding brothers, as each brings his own unique talents to our staff.

If you are interested in applying for, or learning more about the Leadership and Education Consultant position, please contact Director of Chapter Services Joe Wachs at the International Headquarters by phone (317.824.1881) or by e-mail at joe@thetachi.org. **All Leadership and Education Consultant applications for the 2004–2005 academic year are due to the International Headquarters by November 30th, 2003.** To download an application, please visit our website at www.thetachi.org, and click on the link titled, "Consultant Corner."
